

RECYCLED MATERIALS CITYSCAPE – RUBRIC

	4	3	2	1
One-Point Perspective Exercise	All shapes are drawn in correct perspective using a vanishing point and horizon line. A ruler was used to create guidelines that were erased when finished. Spent time crafting letters that were cut out or decorated.	Most shapes are drawn in correct perspective using a vanishing point and horizon line. A ruler was used to create most guidelines that were mostly erased when finished.	Few shapes are drawn in correct perspective using a vanishing point and horizon line. A ruler was not used to create all guidelines and the shapes were not closed off.	No shapes are drawn in correct perspective using a vanishing point and horizon line. A ruler was not used and work is incomplete/unfinished.
Teamwork	Worked cooperatively with a partner the entire time by generating ideas together and developing a plan for their cityscape.	Worked cooperatively with a partner for some of the time by generating ideas together and developing a plan for their cityscape.	Was uncooperative during most of the project by refusing to brainstorm or discuss plan with partner.	Was uncooperative during the entire project and refused to collaborate or communicate with a partner.
Architecture	Cityscape contains at least 6 buildings and each one shows unique architectural details.	Cityscape contains up to 5 buildings and they show similar architectural details.	Cityscape contains up to 3 buildings and architectural details are sparse, similar and/or nonspecific.	Cityscape is unfinished with sparse, similar and/or nonspecific architectural details.
Recycled Materials	Cityscape is constructed using at least six different recycled materials in inventive, creative and unique ways. All materials are neatly glued onto the paper.	Cityscape is constructed with at least five different recycled materials and some inventiveness or creativity. Materials are glued or attached to the paper in a semi-neat fashion.	Cityscape is constructed with less than five different recycled materials that are used sparsely and not neatly glued or attached to the paper.	Cityscape is constructed with less than five different recycled materials that are not nearly glued or attached to the paper. Composition has a sloppy look or is unfinished.
Behavior and Participation	Worked diligently throughout the entire project. Listened during instructional time. Focused on project.	Worked diligently for most of the project. Listened during instructional time. Focused on the project most of the time.	Worked inconsistently throughout the project. Did not listen during all instructional time. Frequently distracting others and disruptive.	Spent most of the project talking, distracting others and/or being disruptive.
